

**STATE MILITARY DEPARTMENT
JOINT FORCE HEADQUARTERS
ALABAMA NATIONAL GUARD
1720 CONGRESSMAN WILLIAM L. DICKINSON DRIVE
P. O. BOX 3711
MONTGOMERY, ALABAMA 36109-0711**

Background Information:

The State Military Department is a State Agency. This State Agency is headed by The Adjutant General of Alabama. The headquarters of the Alabama National Guard is also a component of this agency. The funding for the Alabama National Guard facilities throughout the state is made up of a mixture of State and Federal funds. The type of facility and/or the type of expenditure determine if State matching funds are required. The State funds are provided through the State General Fund while the Federal funds are typically provided through National Guard Bureau (NGB). All expenditures are programmed to meet State / NGB requirements.

This agency typically programs and expends a large amount of the total available funds each year (both State and Federal) on repair and maintenance type projects. This is primarily due to the large number of aging National Guard facilities. This category of expenditures is categorized by NGB as Sustainment, Restoration, and Modernization (SRM) projects.

American Recovery and Reinvestment Act of 2009 Funds:

The State of Alabama, like many other states, received American Recovery and Reinvestment Act of 2009 (ARRA) funds in an effort to “stimulate” the waning economy. The State Military Department did not receive any of these ARRA discretionary funds provided through the State of Alabama however, this agency did receive ARRA funds direct from NGB.

NGB received their ARRA funds from the Department of Defense. NGB subsequently sliced out funding to the various State/Territory National Guards. NGB based the funding to each State/Territory upon a specific list of projects that they determined to be the best “stimulus-type” projects.

This agency received \$6.725M of ARRA funds from NGB for a specific list of NGB directed SRM “stimulus” projects. The chart on the following page is the list of specific projects, along with the amounts, that was directed by NGB to be executed with these funds. Since the actual project amounts may differ once these projects are competitively bid, the guidance from NGB is to pay any overages for a project from one (or more as required) of the projects on this list.

Project Title	Installation/Location	Avail Amt
Auburn Armory Energy Conservation	Auburn	\$76,000.00
AASF #2 Repair/Modernization	Birmingham AASF #2	\$500,000.00
AFRC Oxmoor Road Energy Conservation	Birmingham AFRC	\$292,000.00
Decatur AFRC Energy Conservation	Decatur Ft. Quarles Flowers AFRC	\$60,000.00
